COMMITTEE FOR DEVELOPMENT OF ICT ENABLED TEACHING

Objective

- The objective of the committee is to improve the quality teaching, learning, and research in education institutions.
- The committee has to accelerate, enrich and deepen the skill of teaching and learning among teachers and students respectively.
- The committee has to come up with initiatives to be adjusted to meet the challenges of the knowledge age

Functions and Responsibilities:

- The core function of the committee is to ensure enrichment of teaching learning methodology basically by using digital technology, communication tools and to access, manage, integrate, evaluate and create information in order to function in a knowledge society.
- The committee has to develop e – content and computer-based services to search and find relevant information regarding the course in the form of,
 - Multi-sensory delivery viz text, graphics, animation, sound and video.
 - Active learning: enhanced learner interest.
 - Co-operative learning: positive group/social interaction.
 - Communication Skills: one-to-one, one-to-many, many-to-many.
 - Multicultural education: link students from across the country/around the world.
 - Motivation: greater learner engagement .
- The committee has to provide computer based services to write, analyze, present and communicate the information.
- The committee has to ensure that information technology cell to create networks of co-learners and to share, collaborate and construct knowledge.

- The committee has to arrange training programmes for handling various digital techniques by the students and faculty viz word processing, spread sheet programming, data bases, Graphing software etc
- The ultimate aim of the committee would be to increase the rate of learning which would enable the learner to learn more
